The main drafters of this standard. Lin Zhong, Wang Xifu, Chen Zheng, Feng Jianping, Yang, Liu Zhanfang Ding Shen Peng, Jiangnan Song, Xu Jiandong, Wang, Sun Lin. International freight forwarding business qualifications and Level Evaluation

1 Scope

GB/T 22155-2008 is the Chinese national standard on qualifications and evaluation indicators for international freight forwarding enterprises, in the field of services and company organization. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 2 July 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 December 2008. Classification: ICS 03.100.01, CCS A01. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the terms and definitions related to the international freight forwarding industry, the international freight forwarding business level accreditation and

evaluation. Circulation This standard applies to all types of international freight forwarding enterprises (hereinafter referred to as "corporate" or "freight forwarder") and the definition of international cargo Market for corporate evaluation and selection, but also as a basis for international freight forwarding companies to standardize and management.
