Foreword

This standard replaces GB/T 7920.18-1987 "mechanical fitting term." This standard is 7920.18-1987 "decoration machinery term" amendment GB/T , with reference to the use of the GB/T 18576-2001 "building Construction machinery and equipment - Terms and definitions "and ISO 11375.1998" Building construction machinery and equipment - Terms and definitions "mechanical art decoration Language content, compared with GB/T 7920.18-1987 standard main changes are as follows:

a) increasing the content of the following terms.

- Mortar joint machine;
- Mortar feeder;
- Floor grinder;
- Floor tile cutting machine;
- Bonding tool;
- Painting machinery;
- Moisture machinery;
- Cleaning equipment;
- Preparation device wallpaper.

b) an increase in the English index. The standard proposed by China Machinery Industry Federation. This standard by the national construction machinery and construction equipment Standardization Technical Committee (SAC/TC328) centralized. This standard was drafted. Beijing Institute of Building Mechanization of China Construction Machinery Industry Association, decoration and aerial work machinery branch, Yellow Whirlwind Co., Ltd. and Wuxi Shenxi Construction Machinery Co., Ltd. The main drafters. Zhang, Li Jing, Sunyan Qiu, Zhang Haiyun, Jiang Hui. This standard replaces the standards previously

issued as follows:

--- GB/T 7920.18-1987. Mechanical fitting term

1 Scope

GB/T 22242-2008 is the Chinese national standard on mortar machinery - terminology, in the field of generalities, terminology and documentation. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 27 July 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 February 2009. Classification: ICS 01.040.91, CCS P95. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the mechanical major renovation Terminology and definitions. This standard applies to the construction of architectural decoration (especially for the main building material roof, wall and floor decoration, etc. and other auxiliary workers For) the use of machinery and equipment. They are divided into 12 categories.

- Mortar preparation machinery;
- Mortar mixer;
- Mortar pump;
- Mortar injector;
- Coating plant;
- Surface finishing machinery;
- Operations basket height and gondola;
- Handheld equipment;
- Painting machinery;
- Moisture machinery;
- Cleaning equipment;
- Preparation device wallpaper.

2 Mortar preparation machinery

The renovation process with mortar mixed material into usable finished products processing

machinery.

2.1 Classification

2.1.1 Remove impurities and stones according to a certain particle size sand sorting machinery.

2.1.1.1 Mechanically driven sieve with sieve sand.

2.1.1.2 Driven by an electromagnetic vibrator with sieve sieve sand.

2.1.1.3 Working device is a disc-shaped sieve sieve sand.

2.1.1.4 A working device is in horizontal rotary cylinder sieve sieve sand.

2.1.2 Clear sand contained in the soil and debris washing machine.
