What this standard covers

This standard specifies the method for the determination of sulfur content in the steel used after induction furnace combustion infrared absorption method. This section applies to determination of the mass fraction of 0. 002% ~ 0. 10% sulfur content.

Document data

International classification (ICS): 77.080.01.

Chinese classification (CCS): H11.

Estimated length of the Chinese original: 12,117 words.

Adopted international standard: ISO 4935-1989, IDT.
