Foreword

This document complies with the provisions of GB/T 1.1-2020 "Standardization Work Guidelines Part

1.Structure and Drafting Rules of Standardization Documents". Drafting. This document replaces GB/T 22396-2008 "Terminology for Pressure-Sensitive Adhesive Products". Compared with GB/T 22396-2008, the main differences are structural adjustments and... Aside from editorial changes, the main technical changes are as follows:

---Added 178 terms and definitions, including "sliced roll" (see Chapters 3-9);

---The following terms have been removed. "radiation cross-linking pressure-sensitive adhesive," "metal foil adhesive tape," "masking tape," "kraft paper adhesive tape," and "low-temperature resistance." The term "high temperature resistance" comprises six terms and definitions (see sections 3.8, 4.19, 4.26, 4.30, 8.23, and

8.24 in the.2008 edition);

---Changed "Inner Adhesive Side", "Outer Adhesive Side", "Protective Adhesive Tape (Sheet)", "Anti-corrosion Adhesive Tape", "Advertising Sticker", "Identification Adhesive Tape", "Conductive" The document includes 10 terms and definitions, including "adhesive tape," "crosslinking," "stiffening," and "water vapor permeability" (see 3.8,

2.9 in the.2008 edition; 3.9,...). Versions

2.10 and 5.13 (2008 edition),

4.3 and 5.15 (2008 edition),

4.10 and 5.17 (2008 edition), 4.12 (2008 edition). 5.18,.2008 edition of 4.13; 5.19,.2008 edition of 4.14; 6.41,.2008 edition of 5.22; 8.30,.2008 edition of... 7.27; 9.82,

8.27 in the 2008 edition). Please note that some content in this document may involve patents. The issuing organization of this document assumes no responsibility for identifying patents. This document was proposed by the China Petroleum and Chemical Industry Federation. This document is under the jurisdiction of the National Technical Committee on Standardization of Adhesives (SAC/TC185). This document was drafted by: Shanghai Rubber Products Research Institute Co., Ltd., Meixin New Materials Co., Ltd., and Jiangsu Crown New Materials Technology Co., Ltd. Limited Liability Company, China Adhesives and Adhesive Tape Industry Association, Shanghai Yongguan Zhongcheng New Material Technology (Group) Co., Ltd., Kaiping Qiyu Adhesive Products Technology Co., Ltd., Jiangsu Sidike New Material Technology Co., Ltd., Guangdong Xinzhiyuan Technology Co., Ltd., and Yung-Ta (Zhongshan) Limited Liability Company, Beijing Kangmeite Technology Co., Ltd., Crown New Material Technology Co., Ltd., Foshan Nanhai District Xinyongtai Adhesive Manufacturing Co., Ltd. Products Co., Ltd., Shenzhen Polymer Industry Association, Ningbo Jieao Chuangyi New Materials Co., Ltd., Guangdong Kejian Instrument Co., Ltd., Guangzhou Huitian New Materials Co., Ltd., Hebei China Tobacco Industry Co., Ltd. The main drafters of this document are: Shen Yan, Chen Weibin, Mai Qibo, Yang Xu, Liu Youqing, Luo Jier, Yang Zhiyong, Wu Weiqing, Chen Huachang, and Wang Xia. Li Jianxiong, Pan Daman, Ye Yuanfeng, Yan Liang, Su Ping, Chen Haojin, He Aimin. This document was first published in 2008, and this is its first revision. Pressure-sensitive adhesive product terminology

1 Scope

GB/T 22396-2026 is the Chinese national standard covering the vocabulary of tapes and labels - the carrier, adhesive and release liner, tack, peel and shear, the converting operations, and the defects and failure modes of a product that has to stick on demand and let go when asked. At 28,000 words it replaces GB/T 22396-2008. It was issued on 28 January 2026 and has been in force since 1 August 2026, replacing GB/T 22396-2008. The document is under the responsibility of the China Petroleum and Chemical Industry Federation. This page is published from the official record of the 2026 edition; the clause text of a standard this recent is not yet in circulation, and the figures, limits and tables it contains are those of the document itself, delivered in full with the English translation.

This document defines the terminology and definitions related to pressure-sensitive adhesive products. This document applies to activities related to the design, manufacture, application, teaching, and research of pressure-sensitive adhesive products.

2 Normative references

This document has no normative references.

3 General Terms

3.1 Pressure-sensitive adhesion phenomena.

3.2 Pressure-sensitive adhesive Adhesives capable of producing pressure-sensitive adhesive properties (3.1).

3.3 Pressure-sensitive adhesive products Products made from pressure-sensitive adhesives (3.2) in strip or sheet form.

3.4 Strip-shaped pressure-sensitive adhesive products (3.3).

3.5 Sheet-shaped pressure-sensitive adhesive products (3.3).

3.6 adhesive side; adhesive face Rubber surface Pressure-sensitive adhesive products are coated with pressure-sensitive adhesive, thus having an adhesive side.

3.7 backside The side of a pressure-sensitive adhesive product that is not coated with pressure-sensitive adhesive is the opposite side of the coated side.
