Chinese Academy of Tropical Agriculture Analysis and Testing Center, Food Science, Hainan University. The main drafters of this standard. Yingui Hao, Liu Sixin, charter Hui, Xiede Fang, Liu Hongsheng, Li from the hair. GI products Qiongzong green orange

1 Scope

GB/T 22440-2008 is the Chinese national standard on product of geographical indication - qiongzong-lvcheng orange, in the field of food technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 22 October 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 January 2009. Classification: ICS 67.080.10, CCS B31. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the Qiongzong green orange terminology and definitions, the scope of protection of geographical indication products, requirements, test methods, inspection rules and signs, Packaging, transportation and storage. This standard applies to the State Administration of Quality Supervision, Inspection and Quarantine administrative department under the "geographical indication protection regulations" approved protection

Qiongzong Green and orange.
