GI products Changping Apple

1 Scope

GB/T 22444-2008 is the Chinese national standard on product of geographical indication - changping apple, in the field of food technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 22 October 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 March 2009. Classification: ICS 67.080.10, CCS B31. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the terms and definitions Changping Apple, the scope of protection of geographical indication products, requirements, test methods, inspection rules, marks, packages Loading, transportation and storage and other technical requirements. This standard applies to GI products Changping Apple.
