Foreword

This standard was drafted in accordance with the rules given in GB/T 1.1-2009. This standard replaces GB/T 22537-2008 "Strong quality and other quality." This standard is compared with GB/T 22537-2008, except for editing In addition to the sexual modification, the main technical contents are changed as follows:

- Modified some normative references;
- Removed the terms of ginseng root, aloe and vigorously (see.2008, 3.3, 3.5, 3.8);
- Revised the terminology of the main ginseng and ginseng roots (see 3.1, 3.2, 3.1, 3.2 of the.2008 edition);
- Modified some English corresponding words;
- Change the index of 35 single-weights in the specifications of the Ginseng from 14.2 to 14,45 single-weight indicators from 11.1 to 11 (See 4.1.1.1, 4.1.1.1 of the.2008 edition);
- Will be the parameters and grade requirements of the vigorous participation, from "first-class, second-class, third-class" to "special, first-class, second-class" (see 4.1.1.2, Version 4.1.1.2 of the.2008 edition);
- Increased the description of the reed in the specifications and grades of 16 of the Ginseng (see 4.1.1.1);

--- Revised the thickness and narrowest diameter index in the specifications of the strong ginseng (see 4.1.2.1,

1 Scope

GB/T 22537-2018 is the Chinese national standard on grade quality of boiled ginseng, in the field of agriculture. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 7 June 2018 by the State Administration for Market Regulation; Standardization Administration of China, and has been in force since 1 October 2018. Classification: ICS 65.020.01, CCS B30. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the terms and definitions, technical requirements, inspection methods, inspection rules, signs, labels and packaging, transportation, Storage. This standard applies to the classification and testing of vigorously ginseng.
