Zhu Yongxiang, HU Qi, the Dangen Yong, Chen Hong, Qin Guixiang, Xiede You, Ye Jianhua. GI products Nantong Yangtze River puffer fish (aquaculture)

1 Scope

GB/T 22655-2008 is the Chinese national standard on product of geographical indication - nantong changjiang obscure puffer, in the field of food technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 31 December 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 June 2009. Classification: ICS 67.120.30, CCS B52. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the Yangtze River in Nantong puffer (farming) the scope of protection of geographical indication products, terminology and definitions, the natural environment, farming requirements, even Lock operating requirements, quality requirements, test methods, inspection rules, marking, packaging, transportation. This standard applies to the State Administration of Quality Supervision, Inspection and

Quarantine according to "geographical indication protection regulations" approved protection Nantong Yangtze River puffer (Breeding) (hereinafter referred to as "Nantong Yangtze River puffer").
