This standard was drafted. Quality and Technical Supervision in Youxi County, Fujian Province, Youxi County Agricultural Bureau, Toyama Youxi kumquat Limited. The main drafters of this standard. Wu Changsheng, Lin Shenghong, Xiao Yongding wide Zhanyou Qing. GI products Youxi kumquat

1 Scope

GB/T 22738-2008 is the Chinese national standard on product of geographical indications - youxi kumquat, in the field of food technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 28 December 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 June 2009. Classification: ICS 67.080.10, CCS B31. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the terms and definitions of Youxi kumquat, GI protection range of products, growing conditions and production technology, requirements, test side Method, inspection rules, packaging, marking and labeling, transportation and storage. This

standard applies to the State Administration of Quality Supervision, Inspection and Quarantine administrative department under the "geographical indication protection regulations" approved land protection GI products Youxi kumquat.
