The main drafters of this standard. Wei Yinghui, Luoyin Hua Xie Mu-sheng, Ruanzhao Li, on behalf of the Greek wing, Wu Jingdong, Xuming Min, Jiang Wen, handsome gold high. GI products Jianlian

1 Scope

GB/T 22739-2008 is the Chinese national standard on product of geographical indication - jianning lotus seeds, in the field of food technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 28 December 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 June 2009. Classification: ICS 67.080.10, CCS B31. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the geographical indications Jianlian product scope, terms and definitions, planting and processing, quality requirements, test methods, inspection Rules, packaging, marking, labeling, transport and storage. This standard applies to the State Administration of Quality Supervision, Inspection and Quarantine administrative department under the "geographical indication protection regulations" approved by the Protected

Geographical Lin Jian flag product.
