Yuan Wenzhong, cable Jijun, Zhang Kangjian, Yang Lihua, LI show, Meng Zhaojun, Wang Changhua, Cui Jie. GI products Lingbao gutta

1 Scope

GB/T 22742-2008 is the Chinese national standard on product of geographical indication - lingbao duzhong, in the field of health care technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 28 December 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 June 2009. Classification: ICS 11.120.10, CCS B38. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the terms and definitions Lingbao Eucommia, product range protection of geographical indications, the natural environment, cultivation and processing requirements, test Methods, inspection rules, marking, labeling, packaging, transportation and storage. This standard applies to the State Administration of Quality Supervision, Inspection and Quarantine administrative department under the "geographical indication

protection regulations" approved protection Lingbao Eucommia.
