Xiefeng Ming, Wang Jianhua, Liu Ye Peng, che, star Zhang Xu smooth, Qi Wenjie and Yu were present, Wu Huajun, Ma Junfeng. GI products Biyang Mushroom

1 Scope

GB/T 22746-2008 is the Chinese national standard on product of geographical indication - biyang hua gu (flower shiitake mushroom), in the field of food technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 28 December 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 June 2009. Classification: ICS 67.080, CCS B39. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the terms and definitions Biyang mushrooms, the scope of protection of geographical indications of products, product classification, the production environment and production technology, quality Volume requirements, test methods, inspection rules, marking, labeling, packaging, transportation and storage. This standard applies to the State Administration of Quality Supervision, Inspection and Quarantine administrative department under the "geographical indication protection regulations" approved protection BIYANG Mushroom.
