What this standard covers

This standard specifies the requirements of reliability qualification and reliability testing and acceptance testing of household electric washing machines, trial, fault analysis and statistics, judgment test results, test records and test reports. This standard applies to the rated capacity of not more than 13kg washing of household electric washing machines (including dehydration. Dryers are not included). For washer-dryer laundry can only verify the reliability of its functional parts.

Document data

International classification (ICS): 97.060.

Chinese classification (CCS): Y60.
