Foreword

The standard setting in the "Braille printing paper" on the basis of the original light industry standard QB/T 3522-1999 on. The standard proposed by China National Light Industry Council. This standard by the National Standardization Technical Committee of the paper industry. This standard was drafted. Guangdong Institute of Paper, Pulp and Paper Research Institute of China. The main drafters of this standard. Liang Jianwen, Ma Xuekui, ANS Hoeven. Braille printing paper

1 Scope

GB/T 22826-2008 is the Chinese national standard on braille printing paper, in the field of paper technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 30 December 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 September 2009. Classification: ICS 85.060, CCS Y32. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the technical requirements for Braille printing paper, test methods, inspection rules and signs, packaging, transportation and storage. This standard applies to blind books printing paper.

2 Normative references

The following documents contain provisions which, through reference in this standard, constitute provisions of the standard. For dated references, subsequently Some amendments (not including errata content) or revisions do not apply to this standard, however, encourage the parties to the agreement are based on research Study whether the

latest versions of these documents. For undated reference documents, the latest versions apply to this standard.
