1 Scope

GB/T 22832-2008 is the Chinese national standard on coated art base paper (art base paper), in the field of paper technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 30 December 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 September 2009. Classification: ICS 85.060, CCS Y32. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the printing paper coated art paper (copperplate paper) product classification, technical requirements, test methods, inspection rules and signs, Packaging, transportation and storage. This standard applies to the processing of coated art printing paper (coated paper) base paper.
