The main drafters of this standard. Xu Qin, LATIN Yu Jianjun, Su Li, Zhang Yanfeng, Li Guangliang, fur bright day, Wang Yi. Knit Blazer

1 Scope

GB/T 22854-2009 is the Chinese national standard on knitted school uniform, in the field of textile and leather technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 21 April 2009 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 December 2009. Classification: ICS 59.080.30, CCS W63. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the number of students served knitting type, requirements, inspection rules, decision rules, product description, packaging, transport and storage. This standard applies to the identification of the main raw material to knit student uniform mass production products.
