The main drafters of this standard. Wu Jingmiao, Zhu Guangzhong, Yu Lifeng, Cui Yaping, Lin Fang, Zhang Yahong. Leather fur clothing dyeing Specification

1 Scope

GB/T 22929-2008 is the Chinese national standard on specification of washing for leather goods and fur goods, in the field of textile and leather technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 30 December 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 September 2009. Classification: ICS 59.140.30, CCS Y46. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the leather, fur clothing after dyeing should meet the requirements. This standard applies to leather, fur, wool as the main raw leather processed into clothing apparel products. This standard also applies to the leather, fur, wool as the main raw leather processed into household goods, automotive decorative items, bags and so on.
