Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part

1. Structure and drafting rules for standardization documents" Drafting. This document is Part 2 of GB/T 22939 "Packaging for Household and Similar Electrical Appliances". GB/T 22939 has been published for the following part.

1. General requirements;

2. Particular requirements for range hoods;

--- Particular requirements for vacuum cleaners and water suction cleaning appliances;

--- Special requirements for microwave ovens;

5. Particular requirements for electric washing machines and dryers;

--- Special requirements for refrigerators;

--- Special requirements for air conditioners. This document replaces GB/T 22939.2-2008 "Particular requirements for packaging of range hoods for household and similar electrical appliances" and Compared with GB/T 22939.2-2008, in addition to structural adjustments and editorial changes, the main technical changes are as follows:

--- Added the term and definition of "split range hood" (see 3.103);

--- Deleted the terms and definitions of "pressure-resistant packaging" and "fall-resistant packaging" (see

3.103 of the 2008 edition);

--- Deleted the technical requirements for "moisture-proof packaging", "mildew-proof packaging", "rust-proof packaging", "vibration-proof packaging", "pressure-resistant packaging" and "fall-resistant packaging" (see 4.2, 4.3, 4.4, 4.101,

4.102 of the 2008 edition);

1 Scope

GB/T 22939.2-2025 is the Chinese national standard on package of household and similar electrical appliances - part 2: particular requirements for range hood, in the field of domestic and commercial equipment, entertainment, sport. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 25 April 2025 by the State Administration for Market Regulation; Standardization Administration of China, and has been in force since 1 November 2025. Classification: ICS 97.040.20, CCS Y68. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This chapter of GB/T 22939.1-2025 is replaced by the following content. This document specifies the technical requirements for range hood packaging, describes the corresponding test methods, and proposes requirements for the selection of packaging marks. This document applies to cooker hoods for household and similar purposes. This document does not apply to.

---Downstream system;

--- Range hoods installed for industrial and commercial purposes;

--- Apparatus intended for use in special environments, such as those where corrosive or explosive gases (dust, steam or gas) are present place.
