- 8 Special Requirements for Integrated Electric Stoves

Foreword

This document complies with the provisions of GB/T 1.1-2020 "Standardization Work Guidelines Part

1. Structure and Drafting Rules of Standardization Documents". Drafting. This document is Part 8 of GB/T 22939, "Packaging for household and similar electrical appliances". GB/T 22939 has published the following... part.

1. General Requirements;

2. Special Requirements for Range Hoods;

---Special requirements for vacuum cleaners and wet-cleaning appliances;

---Special requirements for microwave ovens;

5. Special Requirements for Electric Washing Machines and Dryers;

---Special requirements for refrigerators;

---Special requirements for air conditioners;

8. Special Requirements for Integrated Electric Stoves Please note that some content in this document may involve patents. The issuing organization of this document assumes no responsibility for identifying patents. This document was proposed by the China National Light Industry Council. This document is under the jurisdiction of the National Technical Committee on Standardization of Household Appliances (SAC/TC46). This document was drafted by: China Household Electric Appliance Research Institute, Hefei Hanbo Intelligent Technology Co., Ltd., and Zhejiang Shuaifeng Electric Appliance Co., Ltd. Zhejiang Ande Electric Appliance Co., Ltd., Zhejiang Senge Intelligent Kitchen Appliance Co., Ltd., Miji Electronic Appliances (Shanghai) Co., Ltd., Xiaomi Communications Technology Co., Ltd. The main drafters of this document are: Chen Wei, Song Daopeng, Li Bo, Zhang Yayun, Zhang Jianjun, Ji Canyue, and Song Zhizhuang.

GB/T 22939 "Packaging for Household and Similar Electrical Appliances" is divided into several parts, consisting of general requirements and special requirements. Part

1 The general requirements are listed above, while the other parts are specific requirements. For products covered by the specific requirements, the packaging requirements are the same as those for the general requirements. The requirement is to use them in combination, including substitutions, modifications, and additions to corresponding clauses in the general requirements within the special requirements, in order to provide a complete description of each product. The overall requirements. GB/T 22939 is proposed to consist of the following parts.

1.General Requirements. This section aims to specify the general requirements and test methods for the packaging of household and similar electrical appliances.

2.Special Requirements for Range Hoods. The purpose is to specify the technical requirements, test methods, and packaging labels for range hoods. Knowledge, etc.

1 Scope

GB/T 22939.8-2025 is the Chinese national standard covering packing a heavy, glass-topped combination range - the cushioning and the load-bearing of the carton, the drop and stacking tests at that mass, the protection of the ceramic hob, and the marking that tells the handler which way up and how many high. Part 8 of the series, first edition, alongside the product standard GB/T 46504-2025. In force from 1 May 2026. Issued on 5 October 2025, it has been in force since 1 May 2026.

The relevant chapter of GB/T 22939.1-2025 is replaced by the following content. This document specifies the technical requirements for the packaging of integrated electric stoves and describes the corresponding test methods. This document applies to the packaging of integrated electric stoves for household and similar uses. Packaging requirements for downdraft systems should be used as a reference. This document does not apply to.

---Integrated electric stoves installed for industrial and commercial purposes;

---Apparatus intended for use in special environments, such as those containing corrosive or explosive gases (dust, vapor, or methane). place.
