--- The standard 4.2 "look and feel" II MAG101.01.2006 in FIG 4.2.1,

4.2.3 and in Chapter 1, "shape" of the same. 4.2

4.2.2 To increase the provision;

--- The standard 4.3 II MAG101.01.2006 "Structures and Materials" 4.3.2, 4.3.3,

1 Scope

GB/T 23125-2008 is the Chinese national standard on gymnastic equipment - free exercise floor, in the field of domestic and commercial equipment, entertainment, sport. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 30 December 2008 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 September 2009. Classification: ICS 97.220.30, CCS Y55. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered

complete in English translation.

This standard specifies the terms and definitions of gymnastic equipment in the floor exercise venues, requirements, test methods, inspection rules and signs, packaging, transportation Transport and storage. This standard applies to race and practice with the floor exercise venues.
