The previous versions of this document and the documents it replaces are as follows:

---This document was first published as GB/T 23287-2009 in.2009;

---This is the first revision. funeral terminology

1 Scope

GB/T 23287-2023 is the Chinese national standard on funeral and interment terms, in the field of generalities, terminology and documentation. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 7 September 2023 by the State Administration for Market Regulation; Standardization Administration of China, and has been in force since 1 January 2024. Classification: ICS 01.040.01, CCS A22. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This document defines basic terms, management terms, service terms, technical terms, cultural terms, equipment terms and supplies in the funeral field. the term. This document applies to management, services, teaching, scientific research and other activities related to the funeral field.

2 Normative reference documents

This document has no normative references.
