

ICS 91.060.01

CCS Q 70

**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB/T 23483-2009

**Test standard for overall heat transfer coefficient of building
envelope and heat supply for space heating**

建筑物围护结构传热系数及采暖供热量检测方法

(English Translation)

Issued on: April 13, 2009

Implemented on: December 1, 2009

Issued by: Standardization Administration of China

What this standard covers

This standard specifies the terms and definitions building envelope and heating for the heat transfer coefficient of heat, detection conditions, detection device, detection methods, data processing and inspection reports. This standard applies to the main part of the heat transfer coefficient of building envelope heating and testing for heat.

Document data

International classification (ICS): 91.060.01.

Chinese classification (CCS): Q70.

Estimated length of the Chinese original: 9,917 words.

Adopted international standard: ISO 9869-1994, NEQ.
