Foreword

This standard is identical with the IPPC (International Plant Protection Convention) "International Standards for Phytosanitary Measures" ISPM (International Standard for Phytosanitary Measure) No. 20.2004 "Entry Phytosanitary Management System Guidelines" (English Chinese Version).

This standard is equivalent translation ISPMNo. 20.2004.

For ease of use, this standard made the following editorial changes.

- a) Remove the ISPMNo. 20. The 2004 directory, approval, review and modify, and distribute information such as an overview of the elements;
- b) The ISPMNo. 20.2004 introduction into the body of this standard;
- c) increase the informative appendix A guide to use.

Appendix A of this standard is an informative annex.

This standard by the National Standardization Technical Committee on plant quarantine and centralized.

This standard was drafted. Exit Inspection and Quarantine of Hunan People's Republic of China, Chinese Academy of Inspection and Quarantine, the People's Republic of China and country SZCIQ.

Introduction

With the recent development of international trade, the global integration of the economy and deepening interdependence among countries growing countries in Under the premise of protecting its own industrial safety, actively participate in international cooperation has become an inevitable trend. China since 1982 have issued a number of plants Quarantine regulations, but also to develop and publish a series of individual quarantine regulations, but compared to some developed countries, the relevant phytosanitary standards exist in many problems, especially the lack of standards and international standards in entry plant quarantine management, so that appears on the entry points phytosanitary management Manifold. In order to strengthen the implementation of SPS measures (SanitaryandPhytosanitaryMeasures) and international cooperation, so that our plant quarantine entry tube Management consistent with international standards, prompting phytosanitary regulations and guidelines for the management of international standards, to achieve mutual equality, mutual recognition the goal, with timely IPPC "International Standards for Phytosanitary Measures" ISPMNo. 20 "Entry Guidelines for phytosanitary import regulatory system" into our country National phytosanitary standards, not only urgent and important.
