What this standard covers

This standard specifies the sintered soft magnetic metal material and mechanical properties of these metal materials by powder metallurgy manufacturing process for the production of magnetic components. This standard does not apply to casting or semi- soft products.

Document data

International classification (ICS): 29.030.

Chinese classification (CCS): K14.

Estimated length of the Chinese original: 7,731 words.

Adopted international standard: IEC 60404-8-9-1994, IDT.
