What this standard covers

This standard specifies the interchangeability dimensions and mechanical properties of agricultural and forestry tractors with hydraulic brake system connectors, operating characteristics and technical requirements. This standard applies only to the working pressure of 10 MPa -15 MPa hydraulic brake system with connector. The hydraulic fittings for each mount or dismantle agricultural and forestry tractors and machinery required when connecting or disconnecting the brake circuit device.

Document data

International classification (ICS): 65.060.01.

Chinese classification (CCS): B90.

Estimated length of the Chinese original: 5,535 words.

Adopted international standard: ISO 5676-1983, MOD.
