What this standard covers

This standard specifies the CNC spline shaft milling geometric accuracy, work accuracy requirements and test methods. This section applies to a maximum milling diameter 400mm, maximum workpiece length to 4000mm CNC spline shaft milling machine.

Document data

International classification (ICS): 25.040.20.

Chinese classification (CCS): J56.

Estimated length of the Chinese original: 17,194 words.
