Foreword

This standard was drafted in accordance with the rules given in GB/T 1.1-2009. This standard replaces GB/T 26206-2010 "Water Injection Foot Massager". Compared with GB/T 26206-2010, the main technical changes are as follows:

--- Modify the term "splash-proof baffle" to "heat preservation cover"; for "water injection foot massager", "foot bath base", "water injection port" and "blocking Protection" has been redefined; the terms "normal work" and "surfing" have been deleted (see Chapter 3);

---Modified the definition of classification by structure (see 4.1.2, 4.1.2 of the.2010 edition);

---Modified the ambient temperature range in the working environment conditions [see 5.1, 5.1a) of the.2010 edition];

---Modified the appearance requirements and test methods of the whole machine (see 5.4.1, 6.4.1, 5.4.1, 6.4.1 of the.2010 edition);

---Deleted the requirements and test methods of heating rate (see 6.7 in.2010 edition);

---Modified the thermal efficiency grade requirements and test methods (see 5.8.1, 6.8.1, 5.8, 6.8 in the.2010 edition);

---Added standby power requirements (see 5.8.2);

---Modified the blocking protection requirements (see 5.10, 5.10 of the.2010 edition);

1 Scope

GB/T 26206-2020 is the Chinese national standard on injecting water foot massager, in the

field of domestic and commercial equipment, entertainment, sport. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 21 July 2020 by the State Administration for Market Regulation; Standardization Administration of China, and has been in force since 1 February 2021. Classification: ICS 97.170, CCS Y64. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.
