Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting is required.

This document replaces GB/T 26342-2010 "International wooden coffins for the transport of human remains". Compared with GB/T 26342-2010, in addition to the structural adjustment In addition to editorial changes, the main technical changes are as follows.

--Changed the "Scope" chapter (see Chapter 1, Chapter 1 of the 2020 edition);

-- The term and definition of "International Transport of Corpses" (see Chapter 3 of the 2010 edition) have been deleted, and the terms "coffin lid", "coffin body", "panel", and "side panel" have been added.

5 terms and definitions including "handle" (see Chapter 3);

-- Deleted the material requirements (see 5.3 of the 2010 edition);

-- Deleted the appearance requirements for single board, plastic veneer, carving and branding (see 5.4.1.3 and 5.4.1.7 of the 2010 edition);

--The main dimensions and tolerances have been changed (see 4.2, 5.1 of the 2010 edition);

--Added content on load-bearing capacity, airtightness, environmental protection requirements, and weather resistance of coffins for international transfer of remains (see 4.3, 4.7, 4.9). and 4.10);

--Added the method for determining the limits of hazardous substances (see 5.9);

--Added product certificates, packaging, storage and transportation diagrams and labels (see 7.3 and 7.4).

Please note that some of the contents of this document may involve patents. The issuing organization of this document does not assume the responsibility for identifying patents.
