National Rehabilitation Device Quality Supervision and Inspection Center, Changzhou Jing-Qian rehabilitation Equipment Co., Ltd., China Rehabilitation Research center. The main drafters of this standard. Gu Yaling, Fan Jincheng, Dai Dong, Fan positive peach, in Juan-juan, such as Yang Bing, Zhang Hongtao, may be applied. Rehabilitation training equipment quadriceps Benches

1 Scope

GB/T 26346-2010 is the Chinese national standard on rehabilitation training instrument - quadriceps training chair, in the field of health care technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 14 January 2011 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 May 2011. Classification: ICS 11.180, CCS C30. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the terms and definitions quadriceps training chair, models, requirements, test methods, inspection rules, marking, packaging, transport and Storage and so on. This standard applies to active exercise training quadriceps and knee passive traction used in training quadriceps Benches (hereinafter referred to as. Benches).
