The main drafters of this standard. Qi Pingshu, He Honglin, Zhao Jinjun, Han Huitian, Jane Qingsen, Cui Hansong, Ding Nana.

With the development of China's tourism industry, tourists for tourist bus facilities and services are also increasing requirements. In order to promote the tourists Car production enterprises to design, to create a more tourist market to meet the needs of tourist buses, passenger bus service providers to improve the level of service, so that Visitors to the bus can enjoy a higher quality products and more standardized services, the development of this standard. Tourist bus facilities and services

1 Scope

GB/T 26359-2010 is the Chinese national standard on facility and service specifications of tourist coach, in the field of road vehicles engineering. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 14 January 2011 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 1 June 2011. Classification: ICS 43.080.20, CCS R11. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the facilities, service specifications, safety requirements and quality evaluation of tourist buses. This standard applies to the production of passenger services to meet the needs of tourists.
