Foreword

Accordance with the standards GB/T 1.1-2009. Drafting Rules "Standardization Guide Part 1 standard structure and preparation of" given. Please note that some of the content of this document may involve patents. Distribution of this document Institutions do not assume the responsibility to identify these patents. The standard proposed by China National Light Industry Council. The standard paper by the National Standardization Technical Committee (SAC/TC141) centralized. This standard was drafted. China Paper Association Professional Committee of dewatering equipment, it engineered fabrics Jiangsu Co., Ltd., Shanghai Golden Bear Paper net blanket Co., Ltd. Anhui Huachen paper network, network Hebei Hok-huang Industry Co., Ltd., Guangdong Xinhui WASHINGTON industry has Limited, China Pulp and Paper Research Institute. The main drafters of this standard. Hu Bo, Han Jingfen, plot school week, Sheng Chang Xin, Wang Haiming, Ding Jiaxiang, Guoji Zong, Wang Qun Xing. Paper single layer forming mesh

1 Scope

GB/T 26454-2011 is the Chinese national standard on paper machine single layer forming fabric, in the field of paper technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 12 May 2011 by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China; Standardization Administration of China, and has been in force since 15 September 2011. Classification: ICS 85.100, CCS Y91. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This standard specifies the terms and definitions paper with a single layer forming fabric, product type and classification, requirements, test methods, inspection rules, marking, Packaging, transport and storage. This standard applies to the paper industry and other

industrial sectors with a single layer forming fabric.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references, the latest edition (including any amendments) applies to this document.

GB/T 24290 papermaking forming wire, drying wire measuring method

3 Terms and Definitions

The following terms and definitions apply to this document.

3.1 Special woven texture and the corresponding monofilament, using specialized equipment and technology woven into a single layer network, and then by heat setting, cutting, and its plug His special finishing step process and made the paper forming the net.

4 Product Type and Classification

4.1 Model Paper forming a single layer network model representation as follows: CX For the "forming" The "net" xx Warp knit state density, root/cm xx Weft diameter (x 100mm) Fully knit series number -1 DOI
