1 Scope

GB/T 26513-2023 is the Chinese national standard on lip moisturizer (gel, cream), in the field of chemical technology. The /T suffix marks it as a recommended standard: it is not compulsory by itself, but it becomes binding as soon as a contract, a tender or a customer specification calls it up - which in practice is how most foreign buyers meet it. It was issued on 17 March 2023 by the State Administration for Market Regulation; Standardization Administration of China, and has been in force since 1 April 2024. Classification: ICS 71.100.70, CCS Y42. This page is published from the official record of the standard held by the Chinese standards administration: the identification, the dates, the classification and the issuing body are taken from there. The clause text, the tables and the numeric limits are in the document itself, which is delivered complete in English translation.

This document defines the terms and definitions of lip balm, lip gel, and lip cream, and specifies product classification and classification marks, requirements, and test methods: Laws, inspection rules, labeling, packaging, transportation, storage and shelf life requirements: This document applies to lip balms, lip gels, and lip balms:

2 Normative references

The contents of the following documents constitute the essential provisions of this document through normative references in the text: Among them, dated references For documents, only the version corresponding to the date is applicable to this document; for undated reference documents, the latest version (including all amendments) is applicable to this document: GB 5296:
