Introduction

GB/T 40759 establishes a coherent framework that enables cities and communities to achieve their vision and purpose of sustainable development.

This document is a supplement to the requirements and guidelines in GB/T 27021.1-2017, in particular, it clarifies GB/T 27021.1-

Competency requirements for personnel involved in the certification process as described in Appendix A of 2017.

The scope of this document is not limited to auditor competencies, but also covers other certifiers, including conducting application reviews to determine what is required by the audit team.

competencies, who select audit team members and determine audit times, review audit reports and make certification decisions.

The certification body has corresponding responsibilities to relevant parties, including the customers of the certification body and the customers of the organization that has obtained its management system certification,

That is, to ensure that only auditors with proven competence are allowed to conduct audits of urban and community sustainable management systems.

This document uses the following auxiliary verbs.

--- "Should" indicates a requirement;

--- "Should" means suggestion;

--- "May" means allow;

--- "May" and "Can" indicate possibility or ability.

Conformity assessment management system audit and certification body requirements

Part 8. Urban and Community Sustainability Management

System Audit and Certification Capability Requirements

1 Scope

This document specifies specific competency requirements for personnel involved in the process of auditing and certifying urban and community sustainability management systems.
