**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB/T 27526-2011

PROFIBUS profile for process control devices

PROFIBUS过程控制设备行规

(English Translation)

Issued on: November 21, 2011

Implemented on: March 1, 2012

Issued by: Standardization Administration of China

Table of Contents

Preface	
Introduction	
1 Scope	
2 Normative references	
3 Terms and definitions, abbreviations, conventions	
3.1 Terms and definitions	
3.2 Abbreviations	
3.3 Conventions	
4 Process Control Equipment 6 consistency profiles	
6 5 General requirements	
6 5.1 Technical Overview	
5.2 Standard parameters and object	
5.3 Status of process variables and diagnostics	
5.4 Parameter handling	
Version 5.5 Device identification and compatibility	
5.6 Parameter encoding	
5.7 Declaration of Conformity	
6 Bank Regulation to PROFIBUS DP mapping	

1 Scope 1

2 Normative references 1	
3 Terms and definitions, abbreviations, conventions 2	
3.1 Terms and definitions 2	
3.2 Abbreviations 4	
3.3 Conventions 5	

4 Process Control Equipment 6 consistency profiles

6 5 General requirements 6 5.1 Technical Overview	
5.2 Standard parameters and object 11	
5.3 Status of process variables and diagnostics 51	

5.4 Parameter handling 76

Version 5.5 Device identification and compatibility 89 5.6 parameter encoding 95

5.7 Declaration of Conformity 117

6 Bank Regulation to PROFIBUS DP mapping 118

Target 118 6.1

6.2

Technical Overview 118 6.3 communication profile 130

6.4

Ident_Number automatically adapt 141 6.5 profiles define specific communication 153

6.6

GSD file name 154

6.7

GSD file 154

6.8

Declaration of Conformity 155 7 single device data transmitter 156

7.1 Additional parameters Parameter Description of the physical block 156

7.2 Analog Input Function Block 156 7.3 accumulator function block 163

7.4 Conversion block 170

7.5 Declaration of Conformity 206 8 discrete input device data list 207

8.1 Physical block parameter description 207 additional parameters

8.2 Discrete Input Function Block 207

8.3 Conversion block 211

8.4 Declaration of Conformity 212

9 Discrete output device data sheet 213

9.1 Physical block parameter description 213 additional parameters

9.2 Discrete Output function block 213

9.3 Conversion block 220

9.4 Declaration of Conformity 225 10 actuator device data sheet 225

10.1 Physical block parameter description 225 additional parameters

10.2 Analog Output function block 225

10.3 Conversion block 234

Download the order parameter 246 10.4

10.5 Declaration of Conformity 246

11 Analytical Instruments device data sheet 247 11.1 model using function blocks analytical instruments field device 247 11.2 additional physical parameters block 248

11.3 Analysis of conversion block 249 11.4 conversion block 252

11.5 Conversion control block 255

11.6 Limits conversion block 262

11.7 --- binary conversion block alarm alert status 265 More than 11.8-point sampling block 269 11.9 log archiving function blocks --- 272

11.10 Declaration of Conformity 275

Common function set more than 12 variable device 275

13 Identification and Maintenance Functions (IM) 276

13.1 Overview 276

13.2 Parameter Description 277

13.3 Declaration of Conformity 281
