What this standard covers

This standard specifies the test cells and batteries for portable sealed in the handling and proper use of the mechanical properties of the tests and requirements. This standards considered relevant national and international standards. This standard applies to the different electrochemical system (Ni-Cd, Ni-MH and Li), sizes and shapes (cylindrical, square and button) for portable sealed batteries and batteries for test purposes, test methods and acceptance criteria.

Document data

International classification (ICS): 29.220.01.

Chinese classification (CCS): K82.

Estimated length of the Chinese original: 7,738 words.

Adopted international standard: IEC 61959-2004, IDT.
