### What this standard covers

This standard specifies the package scintillator light output and intrinsic parameters such as resolution of the measurement system and methods of measurement. This standard applies to the ??, ??, ??, X radiation and neutron energy spectra measured for count

### Document data

International classification (ICS): 17.240.

Chinese classification (CCS): F88.

Estimated length of the Chinese original: 17,185 words.

Adopted international standard: IEC 62372-2006, MOD.
