What this standard covers

This standard provides for the electric and magnetic circuits theory basic terminology, as well as circuit elements and their characteristics, the network topology, two ports and the n-port network and circuit theory about the basic terminology. This section applies to all technologies involving electrical science and technology fields.

Document data

International classification (ICS): 01.040.29.

Chinese classification (CCS): K04.

Estimated length of the Chinese original: 62,643 words.

Adopted international standard: IEC 60050-131-2002, MOD.
