CCS N 10

**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB/T 29618.315-2013

**Field device tool (FDT) interface specification -- Part 315:
Communication profile integration -- MODBUS**

现场设备工具(FDT)接口规范 第315部分：通信行规集成 MODBUS现场总线规范
(English Translation)

Issued on: July 19, 2013

Implemented on: December 15, 2013

Issued by: Standardization Administration of China

1 Scope 1

2 Normative references 1	
3 Terms, definitions, symbols, abbreviations and conventions 1	

3.1 Terms and definitions

3.2 Abbreviations 2	
3.3 Conventions 2	
4 bus Category 2	

5 Examples of data access and equipment 2

Process Object 5.1 DTM channel provides 2

5.2 DTM provides access to data services and devices Examples 2

6 3 protocol-specific behavior

6.1 Overview 3

6.2 Radio 3

6.3 Modbus request without confirmation private 5 7 common type of protocol-specific data
usage of 6 8 protocol-specific generic data type 7

8.1 Overview 7

Addressing 7 8.2

9 8 types of network management data 10 communication data type 8

10.1 Overview 8

Connection Management 10.2 Data Types 9

10.3 Transaction Service specific data type 9

11-channel parameter data type 32 12 device identification 34

12.1 General Equipment type identification data type 34 12.2 topology scan data types 35

12.3 Scan type identification data 37

Device type identifies the type of data provided 12.4 DTM 39

12.5 Protocol-specific device identification object to the FDT data type mapping 40
