8 BioAPI function

61 8.1 set up management functions

8.2 Data processing operation

8.3 Callback and event operations

8.4 Biometric operations

8.5 Database Operations

Foreword

GB/T 30267 "Information technology - Biometric application programming interface" is divided into two parts.

--- The first part 1. BioAPI specification;

--- Part 2. Biometric archive function for the party program interface.

This section GB/T Part of 130,267.

This section drafted in accordance with GB/T 1.1-2009 given rules.

This section uses the translation method identical with ISO/IEC 19784-1:2006 "Information technology - Biometric application program interface section Part 1. BioAPI specification ", ISO/IEC 19784-1:2006/Amd.1.2007" Information technology - Biometric application access Mouth Part 1. BioAPI specification Amendment 1. BioGUI norms ", ISO/IEC 19784-1:2006/Amd.2.2009" Information technology Biometric application programming interface - Part 1. BioAPI specification Amendment 2. Frame free BioAPI ", ISO/IEC 19784-1:2006/Amd.3.2010 "Information technology - Biometric application programming interface - Part 1. BioAPI specification amendment 3. Support and safety certificates recognized exchange and other security aspects. " Three amendments to the content of the corresponding provisions of this section of the outer margin empty White location marked with a vertical wire (||).

Please note that some of the content of this document may involve patents. Release mechanism of the present document does not assume responsibility for the identification of these patents.

This part of the National Information Technology Standardization Technical Committee (SAC/TC28) and focal points.

This section is drafted. Beijing Tiancheng Sheng Technology Co., Ltd., China Electronics Standardization Institute.
