What this standard covers

This standard specifies the phenolic resin extract at 23 °C conductivity measurement method. This method is particularly important for resin applications as impregnation materials.

Document data

International classification (ICS): 83.080.01.

Chinese classification (CCS): G31.

Estimated length of the Chinese original: 5,580 words.

Adopted international standard: ISO 9944-1990, IDT.
