Foreword

This Standard was drafted in accordance with the rules given in GB/T 1.1-2009.

This Standard was proposed by China Meteorological Administration.

This Standard shall be under the jurisdiction of the National Standardization Technical Committee on Meteorological Disaster Prevention and Reduction (SAC/TC 538).

The drafting organizations of this Standard. China Meteorological Administration
Meteorological Observation Center, Shaanxi Weather Modification Office.

1 Application Scope

This Standard specifies the basic storage requirements, storage method and storage conditions of incendiary agents and refrigerants for weather modification.

This Standard applies to the storage and management of incendiary agents and refrigerants for weather modification operation. It does not include the civil explosive materials and products specified in the Safety Code for Miniature Civil Explosives Magazine (GA 838).

2 Normative References

The following referenced documents are indispensable for the application of this document. For dated references, only the edition dated applies to this document. For undated references, the latest edition of the referenced documents (including all amendments) applies to this Part.

GB 13690, General Rules for Classification and Hazard Communication of Chemicals

GB 15603, Rules for Storage of Dangerous Chemicals

GB 50057, Design Code for Protection of Structures against Lightning

GJB 2527, Electrostatic Safety Requirement for Ammunition

3 Terms and Definitions
