What this standard covers

This standard applies to DC bridges for measuring resistance, but also for the bridge included auxiliary equipment. This standard does not apply to the bridge comparator, auto balancing bridge as well as those by means of zero-meter scale to get some indication of the bridge, and the bridge is not suitable for use with an external auxiliary equipment.

Document data

International classification (ICS): 17.220.20.

Chinese classification (CCS): N25.

Estimated length of the Chinese original: 14,156 words.

Adopted international standard: IEC 60564-1997, IDT.

Supersedes the earlier edition GB/T 3930-1983.
