Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting is required.

This document is part 4 of GB/T 39315 "Common Military and Civilian Resource Data Model". GB/T 39315 has been published as follows part. Part 1: Petroleum products;

Part 2: Equipment-type civil transport ships;

Part 3: Aviation materials for equipment;

Part 4: Equipment-type sanitary equipment;- Part 5: Personnel categories;- Part 6: Facility Class. - Please note that some of the contents of this document may involve patents. The issuing organization of this document does not assume the responsibility for identifying patents.

This document was proposed and coordinated by the National Technical Committee for Standardization of Logistics Information Management (SAC/TC 267).

This document was drafted by: PLA General Hospital, PLA Joint Logistics Support Force Drug and Instrument Supervision and Inspection Center, China Article Coding Center, Information Center of the Logistics Support Department of the Central Military Commission, Hebei Provincial Standardization Research Institute, Qingdao Municipal Standardization Research Institute, Inner Mongolia Autonomous Region Quality and Standardization Institute, Henan Province Standardization and Quality Institute, Zhengzhou Central Hospital, Luyi County Traditional Chinese Medicine Hospital.

The main drafters of this document are: He Kunlun, Li Li, Du Jingrong, Li Chi, Liu Guoqing,

Chen Weiqing, Yang Jun, Liu Jinsong, Wang Haiwei, Li Congfen, Cao Desen, Li Xiaoliang, Wang Xianwen, Han Ying, Yang Shimin, Han Shuwen, Zhang Nan, Xiao Yushi, Ji Guang, Li Kaiyuan, Dai Mengxi, Zhang Haiping, Gao Likun, Jin Dicheng, Jia Jianhua, Mao Fengming, Wu Che, Wang Lili, Meng Ruopu, Wang Can, Dong Jing, Liu Min, Chen Hao, Gu Haitao, Wang Shaoran, Xu Jing, Suo Ni, Cao Zhiwei, Wang Yong, Liu Yang, Hou Zhanqi, Chen Yunzhi, and Yang Ruifang.

Introduction

GB/T 39315 aims to standardize the military and civilian common resource data model. GB/T 39315 is planned to consist of six parts.

Part 1: Petroleum products. The purpose is to standardize the dedicated data model for petroleum products.

Part 2: Equipment-type civil transport ships. The purpose is to standardize the common data model and special data of civil transport ships. Model.

Part 3: Equipment and Materials. The purpose is to standardize the common data model and the dedicated data model of equipment and materials.

Part 4: Equipment-type sanitary equipment. The purpose is to standardize the common data model and special data model of sanitary equipment. - Part 5: Person Class. The purpose is to standardize the common data model and the dedicated data model of the person class. - Part 6: Facility Class. The purpose is to standardize the common data model and the dedicated data model of the facility class. - Military and Civilian Common Resource Data Model Part 4: Equipment-type sanitary equipment

1 Scope

This document establishes the general requirements for the military and civilian common health equipment data model, the health equipment data model, and the health equipment shared data model.

and sanitary equipment-specific data models.

This document applies to data exchange and sharing of military and civilian general sanitary equipment.

2 Normative references

GB/T 18391.1

GB/T 37944

GB/T 37948

GB/T 38003.4-2024

GB/T 39316.4-2024

3 Terms and definitions

The terms and definitions defined in GB/T 18391.1, GB/T 37944, GB/T 38003.4-2024 and the following apply to this document.

3.1 health services equipment common data model

A data model that describes the common characteristics of sanitary equipment.

3.2 health services equipment special data model

A data model that describes the unique characteristics of a particular type of sanitary equipment.

4 General requirements

The naming rules, description methods and formats of the sanitary equipment data model shall comply with the provisions of GB/T 37944, and the data element identifier shall comply with The metadata shall comply with the provisions of GB/T 37948 and GB/T 39316.4-2024.

The sanitary equipment data model is divided into the sanitary equipment common data model and the sanitary equipment special data model.

The dedicated data model for sanitary equipment should be used in conjunction with the shared data model for sanitary equipment.

A common data model for production equipment.

5 Health Equipment Data Model

The health equipment data model number adopts an 8-digit mixed code format, which is the letters "HWS" plus 5 digits.
