1 Foreword

GB/T 40017-2021 was issued by State Administration for Market Regulation, China National Standardization Administration on 30 April 2021 and has been in force since 1 November 2021.

The GB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 56 pages in English translation.

2 Scope Preview

This standard is a Chinese recommended national standard. Its English version is available from this page.

GB/T 40017-2021 falls under ICS 35.110, in the field of information technology.

This catalogue holds 3,378 other GB/T standards in that field.

In this catalogue, GB/T standards carry edition years from 1963 to 2026.

3 About this standard

Issued by: State Administration for Market Regulation, China National Standardization Administration

English translation: about 56 pages

4 Related standards

Standards on related subjects:

GB/T 37684-2019 - Internet of things-Collaborative information processing reference model

GB/T 37685-2019 - Internet of things-Application information services classification

GB/T 38322-2019 - Information technology-Information device interconnection-Interface requirements between third-party smart home electric system and general terminal access service platform

GB/T 40020-2021 - Cyber-physical systems-Reference architecture

GB/T 40015-2021 - Information technology - Telecommunications and information exchange between systems - Control and management of community energy-saving control network

5 Classification and status

International classification (ICS): 35.110

Chinese Standard Classification (CCS): L 79

Prefix GB/T: recommended standard.
