

CCS U 04

**NATIONAL STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

GB/T 40788-2021

**Ships and marine technology - Offshore wind energy - Port and
marine operations**

Issued on: October 11, 2021

Implemented on: May 1, 2022

**Issued by: State Administration for Market Regulation, China National
Standardization Administration**

Table of Contents

1 Scope	1
2 Normative references	1
3 Terms and definitions	2
4 Symbols and abbreviations	22
4.1 Symbols	22
4.2 Abbreviations	25
5 General	27
5.1 General	27
5.1.1 Overview	27
5.1.2 Safety requirements	28
5.2 Jurisdiction	29
5.2.1 General requirements	29
5.2.2 Safety of life at sea	29
5.2.3 Environment	29
5.3 HSSE Project	29
5.4 Risk management	30
5.4.1 General requirements	30
5.4.2 Risk assessment techniques	30
5.5 Work Safety Analysis	30
5.6 Environmental Impact Research	31
5.7 Staffing, qualifications, work and safety training	31
5.8 Daily progress and incident reports	31
5.9 Personnel tracking	31
5.10 Approval by national authorities	32
6 Organization, Documents and Plans	32
6.1 General	32
6.2 Organization and communication	32
6.2.1 Project organization	32
6.2.2 Operation Organization	33
6.3 Quality assurance and management procedures	33
6.4 Technical regulations	33
6.5 Technical documents	34

6.5.1 File numbering system	34
6.5.2 Risk assessment and method description for port and offshore operations	34
6.5.3 Work schedule/plan	35
6.5.4 Emergency concept	35
6.5.5 Emergency plans and emergency procedures	36
6.5.6 Emergency Response Coordination Plan	37
6.5.7 Completion records/Completion documents	37
6.5.8 CAD data transmission standard	38
6.6 Certification and documentation	40
6.6.1 General requirements	40
6.6.2 Required or recommended documents	40
6.7 Maritime guarantee survey	40
6.7.1 Overview	40
6.7.2 Responsibilities of Maritime Guarantee Inspector	40
6.7.3 Scope of Work of Maritime Guarantee Inspector	41
6.7.4 Certificate of Approval	41
6.8 Systems and equipment	41
6.8.1 General requirements	41
6.8.2 Marine ships	42
6.8.3 Main equipment	42
7 Marine meteorological requirements	42
7.1 General	42
7.2 Weather-restricted operations/non-weather-restricted operations	42
7.2.1 Weather-restricted operations	42
7.2.2 Non-weather restricted operations	43
7.3 Marine meteorological conditions	43
7.3.1 Wind	43
7.3.2 Waves, wave periods and swell conditions	43
7.3.3 Water flow	43
7.3.4 Other marine meteorological factors	43
7.3.5 Temperature	44
7.3.6 Marine life	44
7.4 Marine meteorological conditions	44
7.4.1 Design criteria and operating restrictions	44
7.4.2 Return period	45

7.4.3 Analysis based on ship response	45
7.4.4 Probability distribution of sea state parameters	45
7.5 Operation duration, emergency time and weather window	45
7.5.1 Planning work time	45
7.5.2 Weather window period and emergency time	45
7.5.3 Irreversible point	46
7.5.4 Operational restrictions and marine meteorological reduction factors for forecasting and monitoring	46
7.6 Weather forecast	47
7.6.1 General requirements	47
7.6.2 Prediction parameters	47
7.7 On-site monitoring	47
8 Land transportation and nearshore transportation	47
8.1 Overview	47
8.2 Structural integrity calculation	48
8.3 Road transport	48
8.4 Inland water transport	48
8.5 Nearshore Waterway Transport	48
8.6 Rail Transport	48
8.7 Transport pallets and equipment	48
9 Transit storage area	49
9.1 General requirements	49
9.2 Infrastructure requirements	49
9.2.1 Weight-bearing	49
9.2.2 Ground	49
9.3 Storage bays and equipment	50
9.4 Component storage requirements	50
9.5 Component protection	50
9.6 Structural integrity calculation	50
9.6.1 General requirements	50
9.6.2 Eddy current shedding	50
9.7 Security measures	50
10 Pre-assembly	51
10.1 General requirements	51
10.2 Pre-assembly area requirements	51

10.3 Pre-assembly activities	51
10.4 Pre-assembled equipment	51
10.5 Structural integrity calculation	52
10.6 Eddy current shedding	52
10.7 Safety measures	52
11 Port operations	52
11.1 Overview	52
11.2 Port passage	52
11.2.1 Waterway	52
11.2.2 Inland passage	52
11.3 Dock storage area	53
11.4 Security measures	53
11.5 Terminal area requirements	53
11.6 The requirements of jacking operations on the seabed geology of the port	53
12 Weight control	53
12.1 General Rules	53
12.2 Weight control level	54
12.3 Weight and center of gravity constraints	54
12.4 Weight control monitoring	54
12.5 Dimension control	54
12.6 Series Project	55
12.7 Weight determination	55
13 Stability	55
13.1 General Rules	55
13.2 General requirements	55
13.3 Stability calculation	55
13.4 Integrity stability	56
13.4.1 General requirements	56
13.4.2 Integrity Stability Standard	57
13.5 Damage stability	58
13.5.1 General requirements	58
13.5.2 Damage stability criteria	59
13.6 Monohull barge transportation	60
13.7 Multihull barge transportation	60
13.8 Classed ships	60
