Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for Standardization Work Part 1. Structure and Drafting Rules of Standardization Documents"

Drafting.

The translation method used in this document is equivalent to ISO 14573.2002 "Requirements and Test Methods for Strap Holders for Ski and Snowboard Soft Boots".

The Chinese documents that have consistent correspondence with the normatively cited international documents in this document are as follows.

---GB/T 40923.1-2021 Ski snowboard holder installation area Part 1. Requirements and tests for ski snowboard without inserts

Method (ISO 10958-1.1998, MOD);

---GB/T 40923.2-2021 Ski snowboard holder installation area Part 2. Requirements and tests for snowboard with inserts

Method (ISO 10958-2.2015, IDT).

1 Scope

This document specifies the basic requirements and test methods for the strap holder for ski snowboard soft boots.

This document is applicable to adult and child ski snowboard soft boot strap holders,

including soft boot strap holders with step-in function.

This document does not apply to cushioning anti-skid pads.

Note 1.Refer to ISO 14790 for the standard of ski veneer holder without tripping device.

Note 2.See ISO 10958-1 for the standard without inserts in the installation area of the snowboard holder, and see ISO 10958-2 for the standard with inserts in the installation area of the snowboard holder.

2 Normative references

The content of the following documents constitutes an indispensable clause of this document through normative references in the text. Among them, dated quotations

Only the version corresponding to the date is applicable to this document; for undated reference documents, the latest version (including all amendments) is applicable to

This document.
