foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for Standardization Work Part 1. Structure and Drafting Rules for Standardization Documents" to be drafted.

This document is the second part of GB/T 41924 "Light Conveyor Belt". GB/T 41924 has released the following parts.

-- Part 2. Glossary of equivalent terms.

This document is modified to adopt ISO 21183-2:2018 "Light Conveyor Belts Part 2. Glossary of Equivalent Terms".

Compared with ISO 21183-2:2018, this document has many technical differences, and vertical

A single line (|) is marked. These technical differences and their reasons are as follows.

--Modified the scope (see Chapter 1);

--Added Chinese terms to apply my country's technical conditions (see Chapter 4);

--Deleted duplicate terms produced by the order of English terms.

Please note that some contents of this document may refer to patents. The issuing agency of this document assumes no responsibility for identifying patents.

Introduction

According to the actual situation and practice of the light conveyor belt industry, as well as the standardization requirements of the light conveyor belt industry terminology, in order to reduce ambiguity and synonym

To avoid ambiguity and misunderstanding in the process of information exchange, on the one hand, it is necessary to define the term and standardize its connotation and extension; on the other hand, light input

There are more and more international trades in the conveyor belt industry. In order to solve the consistency of term expressions in different languages, it is necessary to standardize the equivalent term expressions in different languages.

GB/T 41924 helps to optimize the order of activities for producers, consumers, and operators to participate in light-duty conveyor belts, and provides an international framework for light-duty conveyor belts.

Activities such as running a trade provide multiple language alternative specifications.

GB/T 41924 is proposed to consist of 2 parts.

--Part 1.Terms and their definitions. Define the connotation and extension of the term light conveyor belt.

-- Part 2.Glossary of equivalent terms. This section contains Chinese, English, French, Russian, German, Spanish

Equivalence benchmarking between Chinese, Italian and Japanese, using cross benchmarking across countries for the terms in Part 1.

light conveyor belt

Part 2.Glossary of equivalent terms

1 Scope

This document defines the Chinese, English, French, Russian, German, Spanish, Italian and Japanese series equivalents for light conveyor belts

the term.
