Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for standardization work Part 1: Structure and drafting rules for standardization documents" Drafting.

This document is Part 19 of GB/T 4214 "Test methods for noise emissions from household and similar electrical appliances". GB/T 4214 has been published. The following parts.

- General requirements (GB/T 4214.1);
- Particular requirements for vacuum cleaners (GB/T 4214.2);
- Special requirements for dishwashers (GB/T 4214.3);
- Particular requirements for washing machines and centrifugal extractors (GB/T 4214.4);
- Particular requirements for electric shavers, electric hair clippers and hair trimmers (GB/T 4214.5);
- Particular requirements for hair care appliances (GB/T 4214.6);
- Particular requirements for tumble dryers (GB/T 4214.7);
- Particular requirements for electric ranges, ovens, grills, microwave ovens and their combination appliances (GB/T 4214.8);
- Special requirements for fans (GB/T 4214.9);
- Procedure for determining and verifying the stated value of noise (GB/T 4214.10);
- Particular requirements for electric food processing appliances (GB/T 4214.11);
- Particular requirements for fan heaters (GB/T 4214.12);

- Particular requirements for range hoods and other cooking fume extraction devices (GB/T 4214.13);
- Particular requirements for refrigerators, frozen food storage containers and food freezers (GB/T 4214.14);
- Particular requirements for thermal storage room heaters (GB/T 4214.15);
- Particular requirements for food waste disposers (GB/T 4214.16);
- Particular requirements for dry cleaning robots (GB/T 4214.17);
- Special requirements for washer-dryers (GB/T 4214.18);
- Particular requirements for humidifiers (GB/T 4214.19);
- Particular requirements for room air conditioners (GB/T 4214.20);
- Particular requirements for oral hygiene appliances (GB/T 4214.21).

Please note that some of the contents of this document may involve patents. The issuing organization of this document does not assume the responsibility for identifying patents.

This document was proposed by the China Light Industry Federation.

This document is under the jurisdiction of the National Technical Committee for Standardization of Household Electrical Appliances (SAC/TC46).

This document was drafted by: China Household Electrical Appliances Research Institute, Guangdong Midea Household Appliances Manufacturing Co., Ltd., and Zhuhai Gree Electric Appliances Co., Ltd.

Company, China Academy of Building Research (Beijing) Testing and Certification Co., Ltd., Qingdao Hisense Hitachi Air Conditioning System Co., Ltd., Foshan Jinxinghui Electric Co., Ltd., Zhangzhou Zhonghuan Technology Co., Ltd., Ain Technology Group (Xiamen) Co., Ltd., Anhui Zhongren Beijia Technology Co., Ltd., Weikai Testing Technology Co., Ltd. Technology Co., Ltd.

The main drafters of this document are: Wang Kun, Zhu Guang, Yao Guanjie, Chen Songtao, Zhang Wenqiang, Huang Yongnian, Wang Jianhong, Gong Jianglin, He Yunyue, Yang Chuan, Li Xue and Zheng Ziying.

Introduction

GB/T 4214 "Household and Similar Electrical Appliances Noise Test Methods" series of national standards adopts IEC 60704 series of international standards or self- It is currently divided into 21 parts.

- General requirements (GB/T 4214.1). The purpose is to provide general requirements for noise test methods for various products.

- Particular requirements for vacuum cleaners (GB/T 4214.2). The purpose is to propose special requirements for the noise test method of vacuum cleaners. Require.
- Special requirements for dishwashers (GB/T 4214.3). The purpose is to put forward special requirements for the noise test method of dishwashers.
- Particular requirements for washing machines and centrifugal extractors (GB/T 4214.4). The purpose is to Special requirements are placed on acoustic test methods.
- Particular requirements for electric shavers, electric hair clippers and hair trimmers (GB/T 4214.5). The purpose is to Special requirements are put forward for the noise test method of hair clippers and trimmers.
- Particular requirements for hair care appliances (GB/T 4214.6). The purpose is to propose special noise test methods for hair care appliances. Special requirements.
- Particular requirements for tumble dryers (GB/T 4214.7). The purpose is to propose special noise test methods for tumble dryers. Special requirements.
- Particular requirements for electric ranges, ovens, grills, microwave ovens and their combination appliances (GB/T 4214.8).

Special requirements are put forward for the noise test methods of grills, microwave ovens and their combination appliances.

- Special requirements for fans (GB/T 4214.9). The purpose is to put forward special requirements for the noise test method of fans.
- Procedure for determining and testing the declared value of noise (GB/T 4214.10). The purpose is to provide the procedures for determining and testing the declared value of noise for all products.

General requirements for indication.

- Particular requirements for electric food processing appliances (GB/T 4214.11). The purpose is to test the noise of electric food processing appliances Special requirements for the method.
- Particular requirements for fan heaters (GB/T 4214.12). The purpose is to propose a noise test method for fan heaters. Special requirements.
- Particular requirements for range hoods and other cooking fume extraction devices (GB/T 4214.13). The purpose is to He puts forward special requirements for the noise test method of cooking smoke suction and exhaust devices.
- Particular requirements for refrigerators, frozen food storage containers and food freezers (GB/T 4214.14).

Special requirements are put forward for the noise test methods of frozen food storage

boxes and food freezers.

- Special requirements for thermal storage room heaters (GB/T 4214.15). The purpose is to test the noise of thermal storage room heaters.

Special requirements for the method.

- Particular requirements for food waste disposers (GB/T 4214.16). The purpose is to test the noise of food waste disposers Make special requests.

- Particular requirements for dry cleaning robots (GB/T 4214.17). The purpose is to test the noise of dry cleaning robots Make special requests.

- Special requirements for washer-dryers (GB/T 4214.18). The purpose is to propose special noise test methods for washer-dryers. Require.

- Particular requirements for humidifiers (GB/T 4214.19). The purpose is to put forward special requirements for the noise test method of humidifiers.

- Particular requirements for room air conditioners (GB/T 4214.20). The purpose is to test the noise of room air conditioners. Make special requests.

- Particular requirements for oral hygiene appliances (GB/T 4214.21). The purpose is to propose a noise test method for oral hygiene appliances. Special requirements.

GB/T 4214.1-2017 adopts IEC 60704-1 2010 and is the common part of this series of standards.

2021 is equivalent to IEC 60704-3 2006, which provides a reference for the determination and verification of noise explicit values in other parts of the entire series of standards. in accordance with.

The part marked "applicable" in this document indicates that the corresponding provisions in GB/T 4214.1-2017 are applicable to this document;

For the part marked as "replacement", the provisions in this document shall prevail; for the part marked as "addition", it means that in addition to complying with GB/T 4214.1- 2017, the provisions added in this document must also be complied with; the part of this document marked "modified" indicates that The corresponding provisions of GB/T 4214.1-2017 are modified.

Unless a note appears in a new sub-clause or refers to a note in GB/T 4214.1-2017, the numbering of the note starts from 101 and includes Notes in the replaced section or subsection.

Test methods for noise from household and similar electrical appliances Part 19.Particular requirements for humidifiers
