What this standard covers

This standard specifies the pressurized and non- pressurized fluid to use public transportation, said thermoplastic pipe outside diameter, and provides pressurized thermoplastic pipe nominal pressure, strength and overall service (design) coefficient minimum requirements. This standard applies to various processing methods and materials manufacturing, circular cross-section, outer wall smooth thermoplastic tubing.

Document data

International classification (ICS): 83.040.20.

Chinese classification (CCS): G33.

Estimated length of the Chinese original: 8,866 words.

Adopted international standard: ISO 161-1996, IDT.

Supersedes the earlier edition GB/T 4217-2001.
