Foreword

This document complies with the provisions of GB/T 1.1-2020 "Standardization Work Guidelines Part 1: Structure and Drafting Rules of Standardization Documents".

Drafting.

This document is GB/T 4269 "Operator control mechanisms and other display devices for agricultural and forestry tractors and machinery, lawn and garden power machinery".

Part 4 of GB/T 4269, "Setting Symbols". The following parts have been published.

---Part 1: General Symbols;

---Part 2: Symbols for agricultural tractors and machinery;

---Part 3: Symbols for lawn and garden power machinery;

---Part 4: Symbols for Forestry Machinery;

---Part 5: Operator control symbols and other markings for portable forestry machinery.

This document replaces GB/T 4269.4-2014 "Operator control mechanisms and their components for agricultural and forestry tractors and machinery, lawn and garden power machinery".

He displayed "Symbols for Equipment Part 4: Symbols for Forestry Machinery", which, compared with GB/T 4269.4-2014, has undergone structural adjustments and editorial changes.

Aside from the modifications, the main technical changes are as follows.

- a) The term "General Rules" has been changed to "General Requirements," and its content has been revised (see Chapter 4, Chapter 4 of the 2014 edition);
- b) Added content on "Development of New Symbols" (see Chapter 6);
- c) Added content on "adapting symbols into number display icons" (see Chapter 7);
- d) Change "Description and Use of Symbols" in the table header to "Title and Description of Symbols" (see Chapters 8-23, 2014 edition).

Chapters 6 through 21);

- e) Symbols such as "Log feed roller - stop/lock" have been added to the "Log collection device symbols" (see Chapter 12);
- f) The content of the "Timber Loader Symbol" has been changed (see Chapter 16, Chapter 14 of the 2014 edition);
- g) A symbol for "Windlass Lubricating Oil" has been added to the "Windlass Symbol" (see Chapter 18);
- h) A symbol for "right-side balance support" has been added to the "Balance Support Symbol" (see Chapter 19);
- i) The symbol for "right cantilever beam" has been added to the "cantilever beam symbol" (see Chapter 20).

This document is equivalent to ISO 3767-4:2016 "Operator control mechanisms and equipment for agricultural and forestry tractors and machinery, lawn and garden power machinery".

Other display devices symbols, Part 4: Symbols for forestry machinery.

Please note that some content in this document may involve patents. The issuing organization of this document assumes no responsibility for identifying patents.

This document was proposed by the National Forestry and Grassland Administration.

This document is under the jurisdiction of the National Forestry Machinery Standardization Technical Committee (SAC/TC61).

Introduction

GB/T 4269 Symbols for operator control mechanisms and other display devices of agricultural and forestry tractors and machinery, lawn and garden power machinery it is a fundamental and universal standard that guides the application of symbols in agricultural and forestry tractors and machinery, as well as lawn and horticultural power machinery products in my country.

The purpose of this series of standards is to convey to operators the essential human-equipment interactions that can be understood without requiring specialized training or instruction.

The required intuitive graphic information should be provided to ensure that the symbols are clear, consistent, and easy to understand.

GB/T 4269 aims to establish a comprehensive and easy-to-use symbol standard for agricultural and forestry tractors and machinery, as well as lawn and garden power machinery. It is proposed to be implemented by five departments.

Composition.

---Part 1: General Symbols. The purpose is to standardize the operator's control of agricultural and forestry tractors and machinery, as well as lawn and garden power machinery.

The symbols used for display devices and other display devices are standardized and explained for easy reference.

---Part 2: Symbols for Agricultural Tractors and Machinery. The purpose is to standardize the operator controls and...

Other display devices are represented by symbols, with standardized explanations provided for easy reference.

---Part 3: Symbols for Lawn and Garden Power Machinery. The purpose is to standardize

the operation of lawn and garden power machinery.

Symbols are used for placement and other display devices, and standardized explanations are provided for easy reference and use.

---Part 4: Symbols for Forestry Machinery. The purpose is to standardize the symbols used for operator controls and other display devices on forestry machinery.

General symbols are provided, along with standardized explanations, to facilitate reference, use, and the development of new symbols.

---Part 5: Operator Control Symbols and Other Markings for Portable Forestry Machinery. The purpose is to standardize the use of portable forestry machinery.

Common symbols used by operators for manipulating devices and other display devices are provided and explained in a standardized manner for easy reference.

Agricultural and forestry tractors and machinery, lawn and garden power machinery
Symbols for operator control mechanisms and other display devices Part 4: Symbols for Forestry Machinery

1 Scope

This document defines the symbols used for operator control mechanisms and other display devices of forestry machinery.

Note 1: GB/T 4269.1 covers general symbols applicable to a wide variety of agricultural tractors and machinery, forestry machinery, and lawn and garden power equipment. GB/T 4269.2 GB/T 4269.3 covers symbols for agricultural tractors and machinery. GB/T 4269.5 covers symbols for lawn and garden power equipment. GB/T 4269.5 covers portable...

Symbols for forestry machinery.

Note 2: Other standard symbols that may be related to forestry machinery can be found in ISO 7000 and IEC 60417.

2 Normative references

The contents of the following documents, through normative references within the text, constitute essential provisions of this document. Dated citations are not included.

For references to documents, only the version corresponding to that date applies to this document; for undated references, the latest version (including all amendments) applies.

This document.
